

The future of  
**electric mobility**  
is here.

Will **YOU** help  
shape it?

# We're on a mission to understand EV charging behaviour and its impact on our local grid.

Joining AlectraDrive @Home gives you access to a FleetCarma telematics device, unlocking critical information about your electric vehicle (EV) – battery health, auxiliary load, carbon footprint, and more! You'll also receive participant incentives and rewards throughout the program.

**FREE**  
telematics device

Opportunity for exclusive  
incentives and rewards

Financial participation  
incentive of \$50

Subsidized smart charging stations  
(Only 30 spots available)

## Together we can pave the way for an electric future

Improve access to  
charging stations.

Prepare our grid  
for more EVs.

Promote EV adoption,  
reducing Greenhouse  
Gas emissions.

## Plug-in to get rewards!

Setup is quick and easy. The telematics device plugs right into your EV's on-board diagnostic (OBD) port or Tesla diagnostic connector. You'll earn \$50 for installing and activating your device, plus ongoing opportunities for additional incentives and rewards.

## Do you qualify?

If you have a fully-electric vehicle, there's a good chance that you qualify to participate in the [AlectraDrive @Home](#) pilot.

## Tell a friend.

If you have a friend or family member who may benefit from this program, please invite them to call us.

## Don't wait, sign up today.
